CEILING HEATING PANEL with LED lighting

400w
to
800w

heats up to
16m²

122x62 cm
800W

SP800

62x62 cm
400W

SP400

The TERMOFOL TF-SP400 and TF-SP800 ceiling heating panels combine energy-efficient infrared heating and LED lighting in a single unit. They provide even heat, a choice of three light colours (3000 K, 4000 K, 6000 K) and take up very little space on the ceiling.

Technical specifications

Model	Power [W]	Voltage [V]	Frequency [Hz]	Weight [kg]	Heated area [m ²]	Dimensions (L x W) [cm]	Remote control	LED lighting
TF-SP400	400	220-240	50	3,2	8	62/62	+	3000K 4000K 6000K
TF-SP800	800	220-240	50	5,5	16	122/62	+	3000K 4000K 6000K
